Dear Hiring Manager,

I am writing to apply for the position of Software Developer Intern in Test for the Fall of 2024 at Dayforce. I am currently pursuing a bachelors in Computer Science with a minor in Electrical and Computer Engineering. As I approach the end of my schooling, I have a strong background in both fields and believe I can be a great addition to any team.

I possess strengths in problem-solving, collaboration, and critical thinking. I am driven to overcome any challenge that may arise during projects and look forward to growing my skills. My critical thinking skills will enable me to analyze complex problems, break them down, and develop solutions.

Thank you for considering my application. I am excited by the opportunity to contribute my skills to Dayforce and I look forward to discussing my qualifications further and exploring how I can contribute to your organization's success.

Sincerely,

Thomas Jamieson
